CHOOSE YOUR LAB

■ **The FX Team: Our Advanced Aesthetic Team**—Our "Boutique" Lab. This is where our most talented and educated ceramists reside. This team of skillful professionals is designed to execute smile design, comprehensive dentistry, custom shade matching and beautiful diagnostic wax-ups. For any dentist wanting our very best talent on a case.

Please allow 12 days in lab
Implant, full arch or full mouth cases 15 days in lab

■ **Great White Dental Lab**—Our standard lab with a 20-year history of offering clients great aesthetics. Here, we offer numerous metal-free options, zirconia bridges and crowns, veneers, implants, attachment cases, large span bridges. Ideally suited for cases that are not straightforward but don't require a smile design expert.

Days in lab:
7 working days: 1-6 unit PFM, empress, feldspathic or diagnostic waxups.
10 working days: All Zirconia units, 7 unit or larger PFM, empress, feldspathic or diagnostic waxups.
Please call ahead to accommodate rush cases.

■ **Aesthetic Value Lab**—Blows all other value crowns away by offering superior aesthetics, fit and function. Designed for simple PFMs, single units, small span bridges, gold work, Captek and Cercon Zirconia. Compare these crowns to those costing double.

Days in lab:
10 working days: All pfm, cerco or full cast units • 12 working days: All Cercon Zirconia units.
We cannot offer rush services in the Aesthetic Value Lab.

To prevent delay and ensure accuracy, please provide all information necessary to process your case.
